EXCEL THERAPY O₂

THE ANTI-POLLUTION REINFORCEMENT FOR THE SKIN

EXCEL THERAPY O₂ THE ANTI-POLLUTION REINFORCEMENT FOR THE SKIN

Every day our skin has to face more than 300 sources of pollution.

The face is mainly the most exposed part; it frequently faces the action of silent enemies, often invisible, which put it at risk and damage it.

The accumulation of these continuous aggressions is affecting our skin. This damage, that for the moment remains silent, undergoes an exponential growth and with the passing of time it materialises as premature ageing, because when the exposure to high levels of pollution is prolonged and repetitive, the skin's defence capacity is surpassed and its ability to protect and detoxify itself becomes compromised.

Germaine de Capuccini launches the crucial counteroffensive against the detrimental effects of pollution.

Excel Therapy O₂ has evolved to adapt to the new needs imposed by our current pace of life developing a global solution against the urban factors that damage our skin daily. **A new generation of decisive anti-pollution treatments** for the skin to be successful every day.

Now you have **THE BEST RESCUE TEAM FOR URBANITE SKIN.**

All the products have been dermatologist-tested.

HIGH TECHNOLOGY FORMULAS

THE BEST ANTI-POLLUTION STRATEGY FOR THE SKIN

IN & OUT POLLUTION DEFENSE

Innovative formulas that integrate the **perfect symbiosis between defense and regeneration**, whose intervention is based not only on the surface but also on a cellular level, working on each of the causes of ageing within urban environments:

DEFENSE - IN Pollution Defense

Two powerful youth activators prevent skin damage caused by years of exposure from coming out.

CYTOKINES = Cellular communication
MPC-DEFENSE COMPLEX*

+

O2 = Cellular oxygenation
LIFE CYTOXYGEN**

* **MPC-DEFENSE COMPLEX** enhances the self-defence capacity and promotes cellular regeneration ensuring a gradual recovery of the skin's optimum condition.

****LIFE CYTOXYGEN** "injects" a high dose of encapsulated molecular oxygen into each cell, thus compensating the consequences ageing and pollution have on our skin and generating at the same time powerful skin rejuvenation.

INNOVATION

Blocks the potential damage of the 4 types of pollution: air, solar, domestic and digital.

LARGE ANTI-POLLUTION TECHNOLOGY = Neutralisation of oxidative stress
GROUP OF BIOCOMPATIBLE POLYSACCHARIDES***
BLUE LIGHT BLOCK****

A “second skin” isolates from the damage produced by these silent enemies that attack daily our skin cells:

AIR

Anti-Adhesion/Anti-Penetration Effect. An impassable barrier that prevents the adhesion and penetration of toxins and polluting particles in the skin (PM 2.5, VOCs, etc.).

SOLAR

A **physical shield against UV** rays reducing the appearance of sunburn cells.

DOMESTIC

It works as a **defensive** coating or **defensive barrier** against the aggressive chemical agents of cleaning, hygiene, etc. products that weaken the skin's barrier.

DIGITAL

A comprehensive **shielding against oxidative stress** generated by the overexposure to the blue light (HEVis) of screens, smartphones, tablets, LED lamps, etc.

***A group of **BIOCOMPATIBLE POLYSACCHARIDES** cover the skin with a **triple anti-pollution shielding** that prevents the adhesion and penetration in the skin of toxins and polluting particles neutralising the free radicals before the damage is produced.

**** **BLUE LIGHT BLOCK** works as screensaver for the skin (digital anti-pollution shielding) blocking oxidative stress generated by the blue light of electronic devices we are connected to for most part of the day (the screens of our computers, smartphones, tablets and LED lamps).

CITYPROOF Intensive Anti-Pollution Oxygenating Programme

RESIST THE RHYTHM OF THE CITY

CITYPROOF Intensive Anti-Pollution Oxygenating Programme is the therapy that includes in its formula a specific barrier to combat the effects of the city on our skin.

**OXYGENATES
DETOXIFIES**

An oxygen release process is initiated, which makes oxygen penetrate the skin by means of an effective mechanism of passive diffusion, oxygenating and purifying it in depth.

REGENERATES

Helps achieve more resistant skin with more regeneration capacity. It effectively improves cellular functions, whose activity is reduced due to age, stress and pollution.

**DEFENDS
STRENGTHENS**

Strengthens the skin's defences and provides a protective barrier that keeps it completely away from external aggression.

COMFORT & YOUTHFULNESS

Cleansing Milk Toning Lotion

More than a hygiene routine it is a complete treatment that envelops the skin with a fine film that treats and protects it from environmental aggression.

Step 1: a facial cleansing and makeup removal with the soft, creamy milk that eliminates imperfections and pollutants without harming it, providing an exquisite sensation of smoothness.

Step 2: prepare the face to receive the benefits of the following treatments, toning and providing a pleasant sensation of freshness.

Both formulas contain LIFE CYTOXYGEN, which activates the skin's oxygenation, and MILK PROTEINS, which balance the skin against possible cutaneous alterations.

Restores the skin with its true comfort.

365 SOFT SCRUB **Facial Cleansing Exfoliating Foam**

An original and delicate exfoliant that cleanses, renews and prepares the skin. It polishes by eliminating dead cells, while diminishing fine expression lines.

Apart from the magnificent properties of LIFE CYTOXYGEN and MILK PROTEINS its formula contains soft WAX EXFOLIATING MICRO-SPHERES that allow to use it 365 days a year.

Suitable for any skin type.

SILKY SCRUB

Delicate Exfoliating Powder

An ultra soft exfoliating powder that carries out in-depth cleansing with minimum friction. Its silky foam easily eliminates all sorts of impurities and the excess of sebum secretion, while removing dead cells from facial skin.

Its formulation is based on WAX MICRO-SPHERES, PAPAINE -with strong cheratolitic effect- and very soft TENSIOACTIVE AGENTS, which allow a delicate, flawless facial exfoliation in an easy and comfortable way.

Suitable for all skin types, even for those that require greater exfoliating care such as sensitive skin and skin with acne.

GENTLE EXFOLIATOR LIPS AND CONTOUR

Regenerating anti-ageing treatment that gently eliminates the dead cells from the surface of the lips and their contour while preserving their hydration, and favours a more voluminous appearance thanks to its WAX EXFOLIATING MICRO-SPHERES and HYALURONIC ACID. It also has a GHK TRIPEPTIDE that prevents the loss of suppleness and protects them against UV radiation.

Easy to apply and remove.

VOLUMINISING ULTRA-CORRECTION CARE LIPS AND CONTOUR

Intensive treatment that works against the appearance of expression lines and wrinkles on the lip contour, restoring a juicy, youthful appearance.

Its formula is made up of a concentrated cocktail of anti-ageing ingredients (MPC-DEFENSE COMPLEX, LIFE CYTOXYGEN, GHK TRIPEPTIDE, HYALURONIC ACID AND COCOA, MANGO, KARITE AND COFFEE BUTTERS) that restore the lost volume of the lips, as well as provide a fine protective and regenerating film that immediately hydrates, smoothes and softens them, also facilitating better adherence of the lipstick.

POLLUTION DEFENSE **-NEW-** Youthfulness Activating Oxygenating Eye Contour

Three keys to open your look in a light, refreshing gel-cream that protects and activates the eye contour:

Defence: against the 4 types of pollution: air, solar, domestic and digital (BLUE LIGHT BLOCK, GROUP OF BIOCOMPATIBLE POLYSACCHARIDES).

Regeneration: reinforces the eye contour skin. Fine lines fade and wrinkles are reduced (LIFE CYTOXYGEN, MPC-DEFENSE COMPLEX).

Correction: decongestant formula with optical pigments in rosy tone that performs a correcting action in 2 stages (TETRAPEPTIDE):

- Immediately – works as a corrector illuminating and concealing dark circles and imperfections.
- With its continuous use – effectively corrects bags under the eyes and dark circles.
