TIMEXPERT RIDES®

ELIMINATES WRINKLES IN 30 DAYS

**You decide the age of your skin**

**TIMEXPERT RIDES** renews its formulas to combat wrinkles with exclusive active ingredients based on the latest advances in bioengineering.

## REVOLUTIONARY FORMULAS

Germaine de Capuccini uses the latest scientific findings to continue acting against wrinkles with evolved formulas and textures.

### **BTX-TRIPLEPTINE**

An innovative **action against dynamic wrinkles** that appear daily.

Active ingredient exclusive to Germaine de Capuccini that works against daily dynamic wrinkles thanks to the synergistic action of three peptides that neutralise facial dermocontractions typical of facial expressions, softening the features.

### **TISSULAGE TECH**

The **regenerating power against static wrinkles** that set in with the passing of the years.

Based on the latest findings in tissue engineering, this ingredient achieves a regenerating action to redensify the skin from inside, where the deeper wrinkles are generated.

## PROVEN EFFECTIVENESS

The effectiveness of the products has been tested three times:

- ✓ **Germaine de Capuccini** – Internal effectiveness study under medical supervision.
- ✓ **Universidad de Valencia** – Tested by the Faculty of Medicine and Odontology, Department of Pharmacology.
- ✓ **Bionos Biotech** – independent laboratory specialised in effectiveness studies.

All the products have been dermatologist-tested.
